

## Year 8 Geography Population Topic

Population	Knowledge, Skills, Understanding
<b>Distinction</b>	<p>Pupils/I:</p> <ul style="list-style-type: none"> <li>can explain the exponential rate of world population growth using terms such as birth rate, death rate and population change</li> <li>can suggest how factors such as urbanisation, agricultural change, education and the role of women have had an impact on population change</li> <li>can explain how and why birth rates and death rates vary from place to place and how they affect population change</li> <li>are/am able to interpret the Demographic Transition Model</li> <li>can identify and explain the features of five stages of the DTM</li> <li>can explain the social and economic impacts of rapid population growth</li> <li>can assess the effectiveness of population control policies in China</li> <li>can explain the difference between different types of migration</li> <li>can explain the causes of migration using geographical terms such as push and pull factor</li> <li>can use an example to assess the impacts of migration on both source and recipient countries</li> </ul>
<b>Merit</b>	<p>Pupils/I:</p> <ul style="list-style-type: none"> <li>can describe the exponential rate of world population growth using terms such as birth rate, death rate</li> <li>can suggest reasons for the growth of world population</li> <li>can describe the variation in birth rates and death rates from place to place</li> <li>are/am able to interpret population data such as birth rate, death rate and population change</li> <li>can describe five stages of the DTM</li> <li>can explain the impacts of rapid population growth</li> <li>can describe population control policies in China</li> <li>can define different types of migration</li> <li>can explain the causes of migration using geographical terms</li> <li>can use an example to explain the impacts of migration on both source and recipient countries</li> </ul>
<b>Foundation</b>	<p>Pupils/I:</p> <ul style="list-style-type: none"> <li>can describe world population growth</li> <li>can state factors which affect the growth of world population</li> <li>can describe the variation in population from place to place</li> <li>are/am able to interpret population figures</li> <li>can identify different stages of the DTM</li> <li>can state ways in which rapid population growth can affect a place</li> <li>can state the ways population has been controlled in China</li> <li>can identify different types of migration</li> <li>can give reasons why people move from place to place</li> <li>can use an example to describe the impacts of migration</li> </ul>

***NB: 'can'= understanding, 'able to'=skills***
