

## Year 7 Geography Tectonic Hazards Topic

Tectonic Hazards	Knowledge, Skills, Understanding
<b>Higher</b>	<p>Pupils/I:</p> <ul style="list-style-type: none"> <li>can describe the structure of the earth in detail and apply this to tectonic movement</li> <li>can describe the features and explain the tectonic processes occurring at constructive, destructive and conservative plate boundaries</li> <li>can describe and suggest reasons for the global distribution of volcanoes and earthquakes</li> <li>can explain the causes of a volcanic eruption using advanced geographical language</li> <li>can assess the economic, social and environmental impacts of a volcanic eruption</li> <li>can evaluate the most effective responses to volcanic eruptions</li> <li>can explain the causes of an earthquake using advanced geographical language</li> <li>can assess the economic, social and environmental impacts of a particular earthquake</li> <li>can explain the 3Ps of earthquake management and evaluate them in relation to a specific example</li> <li>can explain the causes, effects and responses to a tsunami</li> </ul>
<b>Intermediate</b>	<p>Pupils/I:</p> <ul style="list-style-type: none"> <li>can describe the structure of the earth in detail</li> <li>can describe the features of constructive, destructive and conservative plate boundaries</li> <li>can describe with reference to examples the global distribution of volcanoes and earthquakes</li> <li>can explain the causes of a specific volcanic eruption</li> <li>can describe the economic, social and environmental impacts of a volcanic eruption</li> <li>can describe the responses to a specific volcanic eruption</li> <li>can explain the causes of an earthquake using geographical language</li> <li>can describe the economic, social and environmental impacts of a particular earthquake</li> <li>can explain the 3Ps of earthquake management and relate them to a specific example</li> <li>can describe the causes, effects and responses to a tsunami</li> </ul>
<b>Foundation</b>	<p>Pupils/I:</p> <ul style="list-style-type: none"> <li>can describe the structure of the earth</li> <li>can identify and begin to describe the features of different plate boundaries</li> <li>can describe the global distribution of volcanoes and earthquakes</li> <li>can identify why a particular volcano erupted</li> <li>can describe the impacts of a specific volcanic eruption</li> <li>can identify the responses to a specific volcanic eruption</li> <li>can identify the causes of a specific earthquake</li> <li>can describe the impacts of a particular earthquake</li> <li>can explain how people have tried to manage earthquakes with reference to examples</li> <li>can describe the effects and responses to a tsunami</li> </ul>

**NB: direct command = knowledge, 'can'= understanding, 'able to'=skills**
